

Dear TWU Member:

The TWU enthusiastically endorsed John Edwards for President earlier this month. John's the kind of Democrat who reminds us what this party is supposed to be about. He's an unapologetic pro-union Populist who talks about the importance of unions to *all* audiences, not just when he is talking to unions.

He's not one of those corporate Democrats who try to split the difference between Wall Street and Labor. He's a man who will take on the special interests in Washington – and beat them.

Not only that – he's the most electable Democrat. The one with the best chance of kicking the enemies of labor out of the White House.

If we want to put this country back in the hands of working people, we all have to do our part. John's facing an important deadline on Sunday, when the third financial quarter comes to an end – so now is a very good time for us to show our support. Below is a link to a website where you can view the TWU endorsement [video](#) and, if you choose, make a financial contribution to his campaign.

Please watch the video and think about helping out by going online now to <http://www.johnedwards.com/twu> or by calling 866-351-1865.
