September 4<sup>th</sup>, 2008**Brothers & Sisters;**

Approximately two (2) weeks ago I was informed by ATD International Representative Don Videtich that we will have a decision concerning the occupational accrual for former TWA LLC employees who were recalled from lay-offs (DRC #32) on Monday August 25<sup>th</sup>. As of this writing I have not been notified of the arbiter's written decision to this dispute. I have made numerous calls and informed Don that we have a "winter bid" that the guys are reluctant to bid on in several weeks and also reminded him of the planned reduction in force in the very near future that will have a significant impact if the wrongful employee is laid-off.

As I previously communicated, my intent was to inform the membership of when to expect the decision as communicated to me by the ATD.

In closing, as soon as I am notified of the decision we will then notify the membership.

In Solidarity,  
John Iuliano  
President
