November 29, 2011

Dear Brothers and Sisters;

Its time to mobilize! Participation can no longer be optional. With the company trying to utilize the scam that is known as "Chapter 11 Reorganization" to pressure workers to give up what they could not get us to give up through years of negotiations it's more important than ever to take an active part in sending the message that "Enough is Enough".

We are not alone, all across the country workers are under attack, and all across the country people are saying "Enough is Enough". You can choose to sit back and complain, the bosses like that, or you can take it to the streets, they don't like that. Do not underestimate the power of demonstrations. Recently we have seen several governments toppled by movements that started out as simple demonstrations in support of simple demands. A message resonated across those societies and helped push through changes that no one thought possible.

**On Thursday, Dec 1 at 16:00 hours workers from many professions and industries will march in protest of Corporate Greed from Herald Square at 32nd Street to Union Square at 14th Street. Make the effort, take the time, and participate, your family and their futures are worth it!**

Fraternally;

Bob Owens  
President
